Case

Remember that outfit you had?
You said it was for just in case
Well I think I want to call it just for Case
How about it?

You look so good (look so good)
In that little dress, girl I'm jonesing
You taste so right
Your body got me ready to touch you
(I want to touch you so bad)
Tell your daddy I said thank you
He made your mama the one that he loved
What's your name girl?
You not my main girl
You're a stranger
Girl who are you?

Tonight lady here's your reminder
Just in case your love needs filling up
I want my bad girl, please be my bad girl
Put on that lotion, drive me crazy
Strawberry

I want it so bad
You got my heart racing I can't control it
You drive me so mad
Leaving me speechless each time you smile light up the room
I just want to love you, baby
I just want to love you, baby baby

Tonight lady here's your reminder
Just in case your love needs filling now
I want a bad girl, please be my bad girl
Put on that lotion, drive me crazy
Strawberry

Put on that lotion, drive me crazy
