Case

Girl before I end up in the middle
I should explore just a little
I'm tryna master every single angle
Learn it by heart, every single part of you
Once I capture your mind
Work my way down your spine

I'ma be your resident
Girl this place is so fly
I'm gon' need me a guide
There's things that I don't wanna miss
So you gotta

Give me the tour
Give me the tour
Let me get the tour
(Of your body)
Give me the tour
Give me the tour
Let me get the tour
(Of your body)
First I'm gonna get more comfortable
If I'm gonna make myself at home
Gotta give me the tour
Give me the tour
I need the tour
(Tour of your body)

Legs stretched this far back
Flexible, take another load of that
Skin so soft on mine
Hope that I can stand up in it
Work my way up your thighs
Once I find your surprise

I'ma be your resident
Girl this place is so fly
I'm gon' need me a guide
There's things that I don't wanna miss
So you gotta

Give me the tour
Give me the tour
Let me get the tour
(Of your body)
Give me the tour
Give me the tour
Let me get the tour
(Of your body)
First I'm gonna get more comfortable
If I'm gonna make myself at home
Gotta give me the tour
Give me the tour
I need the tour
(Tour of your body)

Tour of your body

Let me hear you say explore
Let me hear you say explore
Let me hear you say explore
Your body

Girl just like I'm new in town
It's an open house
I could shut it down if I know my way around
Your body's looking edible
Layout is incredible
I feel right at home, tell me did you get the metaphor?
I think your body's made for em to explore
(The tour, the tour, the tour)
I'm so ready baby
(The tour, the tour, the tour)
So I'ma need for you to just

Give me the tour
Give me the tour
Let me get the tour
(Of your body)
Give me the tour
Give me the tour
Let me get the tour
(Of your body)
First I'm gonna get more comfortable
If I'm gonna make myself at home
Gotta give me the tour
Give me the tour
I need the tour
(Tour of your body)

I really want it baby
I really want a baby
