

Robot Lovers

Casey Abrams

Here they come to meet us
Your wish is their command
Electric charge between us
Come together anyway you can, ah

Digital dreams just like the others
(Beep boop boop bedo dee doop boop)
Analog beats blasting to my brothers
(Beep boop boop bedo dee doop boop)

And we gave them music
That gave them soul
Give us the feeling
That we're not alone

You got Robot Lovers
Dancing in the street
Robot Lovers
Dancing in the street, dancing in the street

We get that easy feeling
With something in our hands
A kind of techno healing
Come together anyway you can

Digital dreams just like the others
(Beep boop boop bedo dee doop boop)
Analog beats blasting to my brothers
(Beep boop boop bedo dee doop boop)

We gave them Music
That gave them soul
Give us the feeling
That we're not alone

You got Robot Lovers
Dancing in the street, yeah
Robot Lovers
Dancing in the street, dancing in the street
Yeah

Digital dreams just like the others
(Beep boop boop bedo dee doop boop)
Analog beats blasting to my brothers
To my brothers, yeah

You got Robot Lovers
Dancing in the street
Robot Lovers
Dancing in the street, dancing in the street

'Cause we gave them Music
And that gave them soul
Gives us the feeling
That we're not alone

You got Robot Lovers

Dancing in the street, yeah
You got Robot Lovers
Dancing in the street, dancing in the street
