Casey Veggies

Yeah, yeah  
Aw, aw, yeah

Sit back thinking we was walking through them halls  
On the playground in the sandbox with my dog  
We put banners on the wall  
Yeah, these streets ain't got no standards in it no more  
Ain't no loyalty in this shit, ain't no real ones you can call, aw

I got ten toes down, I know they'll do me wrong  
I can't ever fold, you know I'm standing strong  
If I get on then you know I'm putting on  
I been waiting 'round in line way too long  
I can't believe my niggas gone  
Now I'm just grinding all alone  
All this bullshit I don't condone  
Tell me how can I move on  
When the energy f\*ck up my zone? (Damn)  
Now I'm just righting my wrong (Wrong)  
Caught up in this lifestyle going crazy  
Real stand up nigga, can't believe they tried to play me (Play me)  
Yeah, I told myself that I'd never let the fame phase me  
Young nigga made it out the streets when he signed to Jay-Z  
Way them streets turn you to a savage, yeah that shit amaze me  
I ain't no imitation, I'm a product of the shit made me (Uh)

Sit back thinking we was walking through them halls

I ain't the type to hesitate, I gotta motivate  
I make a play and show the youngins it's another way  
I give my all 'cause we could go on any given day  
I'm still running marathons, yeah, I ain't in a race  
I'm still all money in like my nigga Nip would say  
I know these niggas wouldn't last if we was switching places  
Like, boy, stop playing, get in your bag and you'll see different faces  
I love the feeling watching it add up, this shit's so amazing (Yeah)  
It's a blessing when you make it out the hood to go and see different places  
I know some niggas that ain't ever been to a different state  
Lil' shawty ain't seeing my vision, I been on a mission lately  
That's why while the getting's good you know I gotta go and get it, baby

Sit back thinking we was walking through them halls
