

# Forever

Casey Veggies

[Verse 1: Casey Veggies]

Nigga we be on our shit, call us cow manure  
Young boy stay clean even in the sewer  
My last girl was super but I couldn't get through to her  
I swear I was literally just tryna get into  
But you can't even have her, I'm the closest thing to her  
Can tell you everything about her, Feel like I really knew her  
But if God could bless anybody, I swear I'd just choose her  
Cause she's a good girl tryna stay true to her  
My mind stay racin' I swear I could run in Cuba  
Been shaded up lately, Blowin' hard like a Tuba  
Like man am I a loser? Or is it just a new her?  
I swear I'm the only dude in her life that improved her  
But when I grow up man I might just have to move her  
Somewhere with the money we gon' ball like a hooper  
Been doin' a lot of growin' I swear I been on some new stuff  
Livin' like the Jefferson's, nigga it's that time to move up

[Hook: Casey Veggies]

I'm up late night just tryna get it right  
Swear I been on my grind just tryna stay outta sight  
This is "Sleeping In Class" just tryna spread my light  
Tryna make a mil off these million thoughts that I write - Right!  
Forever, Forever ever, Forever ever? Forever  
Any weather I'm here whenever  
Forever, Forever ever, Forever ever, Forever  
We'll stay together and make it better  
Yeah

[Bridge: B.J The Chicago Kid]

Yeah I fall asleep in class  
You niggas learnin' for now but I'm sittin' here dreamin' my future  
And when we leave class you niggas better haul ass  
Cause my life ain't quite what ya used to  
Every single morning, When ya'll packing I'm yawning  
From nights in the studio, Nigga if ya didn't know  
I'm on it

[Verse 2: Casey Veggies]

Dreamer turn believer 'bout my salad like Caesar  
The society just tease us findin' ways to decrease us  
My rhyme's like Jesus findin' ways to increase us  
This my story, Gettin' money, There's a thesis  
Cause what my family leave is for my Nephew's and my Niece's  
Just wanna make sure my generation don't fall to pieces  
Cause what them teachers teach us  
Got degrees and they don't believe us  
They lie to us when they conceive us  
Tryna shred us down to pieces  
That's reality

[Hook]
