Came back to the city, everything poppin'

Same girl waitin' for me, same hoes watchin'

Everything is fine nothing will stop me

Postpone college made more money

Nothing bout the pride tryna take more from me

Now I tell myself that I'll make that back

I'll take that stash I'll say that stash

Drop that soul I make that stack

Still won't hear what life is gone

It's Young CV with a capital

You won't get me spittin rapper flow

I rather show my niggas how to get the dope

At 18 I can shine the jail Get mine today I ain't trying to wait only time will tell I got clientele, my mind to sell

Cocky young fly black male in a fitted cap my chick run track got to sit on my lap

Tell me where she go to school

Freak when I'm tryna tap

Tell me where the cash at right where my fingers girl Read my astrology

Tell me what you want out of me

I'm a hot commodity

Kill this shit no apologies

Get that money Aww man (Young veggies)

When I was younger I was easily influenced

When I got a little older I realized I was stupid

Heart got a little colder and that's how you keep moving

And that's when I found out I would get to it

I don't know man I feel like I gotta do it

For everybody around that I've influenced

She said Casey, "You lyin'", I told her "I didn't do it"

A lot of niggas say they rappin' but my shit movin'
