

# Get Through

Casey Veggies

Niggas talking about they one of us  
I'm like, nah he just runner up  
Large T's gotta give these hoes a summer cut  
APCs with a pocket full of hundreds

Name getting bigger  
If there's somebody else, name me a nigga  
Built my whole life from the bottom you can spot em  
The whole city know where I stay if it's a problem  
Yeah, I put it on the map  
I don't be talking rap nigga I be talking facts  
Tweet that C.V where you at, damn

Back in it, fast spin it  
I got my weight up, they mistaken, must of had spinach  
I just spit that shit out like bad dinner  
You sucka niggas got punked, yeah Ash Kutcher  
We breakin' trees down, Tarzan  
And this twitter chick on me tryin' to meet me in person  
Them hating niggas fly and try to see what they can prevent  
But they just get tangled up, like hair yeah MURS shit  
And nah nigga I ain't disrespecting him  
That's just how I get attention and let niggas know I win  
My motto full throttle I'm Picasso with a pen  
My dreams like 3D and I don't think they ever end

Baby where you from? Where you wanna go?  
I be doing me I just thought that you should know  
I swear I've been tryin' to find a way to get through  
To you...  
Swear I get it in yeah I get it in  
If you roll with me, that's with me we gonna win  
I just keep it real, I ain't gotta front  
And now I got it all baby tell me what you want

Yeah I swear I should go now  
Most these niggas actin' I should start a show now  
I be on that real shit what most of y'all don't know now  
So I stay to myself, and keep it on the low now  
I be shaded up, yeah I'm shaded up  
Strictly bout my bucks stay up out my face nigga I don't trust ya'll  
I ball like Chris Paul  
The shit he did in highschool was so damn raw  
I came in proper a young nigga's hero  
Them old niggas respect me, you young niggas zeros  
But let me slow it up, don't forget what you know  
When you losing in life and you don't even grow  
A few divas two seaters close to these hoes  
New sneakers, fresh creases, horse on my clothes  
I just killed the game no remorse that's how it goes  
You gotta play your lane my nigga and pick a role
