

Life Changes

Casey Veggies

I found love and I stopped lovin
Found God when I stopped lookin for one
Found a life but can't make a livin
Don't wanna find the end so I'm still here
Still lost, still here
No past, don't care about looking back anyway
Nothing matters anyway
'Cause I'm still lost, still here
No past, don't care about looking back anyway
If I'm moving on it anyway

Yea, yea, word
Life changes
Ah man
Yea

How is anybody gon hear it if I don't record it
New shit I'm driving yo I probably couldn't afford it
Would be trapped in a hood state of mind, end up less rewarded
But I took a couple chances, now life is gorgeous
This gon change everything
Like a chatter, FEMA will wear a wedding ring
But heaven brings angels down, now watch us while we levitate
Caught the police wouldn't see me, but they showed up and late
I just do my duggy on these hoes
I'll be dancing in the rain, soaking puddles in my shoes
Broken heart plus the rules, open art full of clues
No bizarre, rose and parks, Martin Luther always knew it yea
Life changes

No path, I'm still lost
Still here I wait
No path, I'm still lost
Still here I wait

All the big things around me and I really just wanna be comfortable
You know everything about me and that's why I fell in love with you
I just want you to be down for me 'cause I really can't keep up with you
Times my mind be clouded and I feel I had enough of it
Lord I pray I live and grow, please just help me fight pain
I never jump to no conclusions and always know that life change
We never thought it would show us, sometimes I just invite things
But I'm moving at a good pace, just moved into a new place
For me you live a movie when you play a role and just do it
I just do my duggy on these hoes
I'll be dancing in the rain, soaking puddles in my shoes
Hop out the shower in the towel, then it drop that totter pole
Rock and snap a hit on my phone, 'cause I'm gonna see it whenever I'm gone
Don't wanna grow up but I'm grown
Don't wanna blow up but I'm blown
Make sure it's proven and known I wasn't just the next rapper to be on
Young winners, we got it man, they slide in our face and endited us
She made you love and then smacked her friend and then let you know that it
wasn't shit like Tangie

No path, I'm still lost
Still here I wait

No path, I'm still lost
Still here I wait

All the big things around me and I really just wanna be comfortable
You know everything about me and that's why I fell in love with you
I just want you to be down for me 'cause I really can't keep up with you
Times my mind be clouded and I feel I had enough of it
