

Perfect Timing

Casey Veggies

No matter what, we gon' get it
CG4
I heard you, I feel you

I been searching for the real so long, I can't find it
First play don't go right, I keep grinding
Jumped in the game so young, I been shining
Baby girl drink all night, it's perfect timing
I took that pressure, I made diamonds (Blinded)
I'm on the road, I been grinding (Shinin')
Millionaire dreams, I got to find it (Find it)
Let's get to the money, it's perfect timing

Another sunny day in LA, just let the top down
Pull up in that block on black, shut the block down
Shorty wanna roll with me, yeah she in my town
Said they all sound the same but this how I sound
Remember back in '06, we raised the climate
I find it funny how you need to be reminded
I'm blinded cause my Your eyes is hidin' behind something like the Young Veggies, the wait is over
The city waited 8 years in the game, I been rocking steady
Copped the five, ain't no stopping til I cop the Bentley
God got me, my grandma watch me, yeah they all that's all I really know
Been had tryna get more
Once it's right up in your face it's hard to let it go
Casey first place yeah,
I been searching for the real so long, I can't find it
First play don't go right, I keep grinding
Jumped in the game so young, I been shining
Baby girl drink all night, it's perfect timing
I took that pressure, I made diamonds (Blinded)
I'm on the road, I been grinding (Shinin')
Millionaire dreams, I got to find it (Find it)
Let's get to the money, it's perfect timing

This that shit that make me want to stay young
This for everybody that done wait up, my cake up
Now them girls come easy like a layup
Say what, I been making moves like a freight truck
Ass so fat, I give a damn if she got A cups, I'm raw
I been living life above the law
Thank God, these kids see the boy and they applaud
They know me around the world, you know I'm getting Dog, yeah you know I'm p
rolly with your broad
Ten bottles to the face, she gon' break the law
Balling all fucking day, we don't never fall
Bout to cop that AP new Sub zero flows told you I'm cold nigga
If I'm getting richer, all of my bros gettin' it
New whips and I switched up all my hoes niggas
I'm getting that money that make her come and get it

I been searching for the real so long, I can't find it
First play don't go right, I keep grinding
Jumped in the game so young, I been shining
Baby girl drink all night, it's perfect timing
I took that pressure, I made diamonds (Blinded)

I'm on the road, I been grinding (Shinin')
