

# The World

Casey Veggies

Nice denim, nice women  
Yeah she know that I'm quite winnin  
This gon come at the right time  
I'm ridin' round and I'm tryna get it  
First whip was a Audi coupe  
Drive that shit like a Honda Civic  
One life, I'm tryna live it  
That Hennessy is in my liver  
Usually I don't drink but when I do it's so exquisite  
I would probably be a bigger rapper if I would do, something different  
But it's no hype, it's on sight  
I'd rather rap about my life  
No judging, girl do yo thing  
Why you worried bout what I think?  
I be rockin' them ripped up jeans  
I be movin' round with my team  
It's good to have different options  
Got different kicks from different shopping  
Bound to get it, that ain't no option  
We gotta do it, put it all in music  
Peas and Carrots, yea we gon stay  
That's my brand like Frito Lay

Worried bout all the places we go, vacation in Rio  
I be in my speedos, everything wavy  
Like a torpedo, baby girl date me  
Then she gotta let go  
Way I've been lately, I be getting checks tho  
All up inside er, tryna get er wet tho  
Tryna see a rider like she from the set though  
This girl's on the board  
I don't even sweat her, already think I love her  
She could be a mother  
I'd never slut her you can even have a brother  
Call me young papa, she my sole survivor  
We doin improvs, just eatin on pasta  
I been in them Pumas and we do them pradas  
They be tryna follow but am I role model?  
When she in the room she just spread it like a rumor  
I give it to her every time she need the pounding  
Just gotta holler

I wanna be alone with yo girl  
You know I'll bring that money home to you girl  
Just keep it true, do what you do with your world  
I'mma do me and we gon take over the world  
Ain't got no problems  
This a song for you girl  
Uh yea I got it, we get known on all over the world  
If you tryna ride we gon take over the world  
You tryna ride we gon take over the world  
If she gon ride we gon take over the world

Everybody wants something from me  
These rap niggas want a deal from me  
These bad bitches want a feel from me  
I'm young, eatin, I'm still hungry

Me and Casey got big dreams, like ridin round in whatever coupe  
Like we ain't worried bout shaped dreams, game dirty, we stay clean  
Tryna see what this life brings  
Through all the bullshit that I've seen  
The good times, the bad times  
You don't get shit when you out here lyin  
You can see me and a nigga flyin  
On a different plane and a different night  
You look at me like I'm movin white  
God got me all in the light  
The wrist shining, the neck shining  
It's good timing, I'm still finding  
Ways to get more motherfuckin money  
Niggas wanna learn, you can learn something from me  
I'm a boss in my own right  
Bitch I can go and change yo whole life  
What you want? I can cop that  
You wanna do the hard top or the top back?  
Gave young niggas choice  
And we ain't going back to being broke  
And when they see a nigga drown by the flow  
Now I'm laid in the shade, getting paid while I smoke  
And I'mma pass it if you open, don't talk, keep rollin'  
Stay high above all, like fuck it we ball and it's so well spoken  
Dead presidents speak for me, good girls be some freaks for me  
Got a new technique and it's so unique, man the flow antique  
The album coming pray for the leak  
If he sayin he high then he tweaked  
With the new world he coulda bought a Jeep  
And you know it's all love when you see me in the streets  
You know I wanna be alone with you girl  
Swear I'll bring that money home to you girl  
These niggas weak, I'm smoking strong wit you girl  
No bongs wit you girl

I wanna be alone with yo girl  
You know I'll bring that money home to you girl  
Just keep it true, do what you do with your world  
I'mma do me and we gon take over the world  
Ain't got no problems  
This a song for you girl  
Uh yea I got it, we get known on all over the world  
If you tryna ride we gon take over the world  
You tryna ride we gon take over the world  
If she gon ride we gon take over the world
