

# Come n Get It

Caskey

Fuck religion you a Goddess!  
Can I praise you for a second?  
Pay my tithes to you cuz you my biggest blessin' lil mama  
I'm locked inside a confession  
Taking shots!  
You done left a banging impression  
I'm impressed  
I want you on my team  
They don't know how to handle your body  
They've never seen something like yours  
Im gripping your ass opening doors  
You like to growl  
I'm a lion  
I like to roar  
Look I simplified it  
Jumped in and ride it  
Legs get divided  
I'm slipping and sliding  
Your pussy might have came with Poseidon  
God damn  
Come and get it (4x)  
Look girl you call up Im gone make time  
Don't care how far you are  
For you I'm crossing state lines  
That's from my mouth you ain't gotta go check the grape vine  
Come and get it (4x)

Ok I seen you from a far  
Pulled up in the car  
Dropped the top quick  
Girl im cool with who you are  
Baby girl just come and get it  
Just come and get it

She say she wanna fuck a star  
Come and get it (4x)

Years later you hold it down thorough  
We overseas blowing through Euros  
Pop the merlot  
Hit the clutch roll through the borough  
Most our communication ain't verbal but you know me well  
Look I may smoke a blunt with you but that's my only L  
We undefeated they just uncompeated  
I ain't got the time for these pussies tweetin  
They don't know the half of the shit were dreamin  
Exercising. You expertizing  
Your body vibrant  
My undivided attention on you  
What you providing?  
God damn  
Come and get it (4x)  
Look it took time but we do evolve  
Our issues rarely arise and they soon dissolve  
I could look you in your eyes and say "I love your flaws"  
Come and get it (4x)

She way she wanna fuck a star or somebody bizarre  
I done took my sins rolled 'em all in my cigar  
Baby girl just put it on me  
She tryna put it on me (2x)
