

Jealousy

Caskey

Playin' off of my jealousy
I don't buy that shit you sellin' me
Can't trust you about anything
I rode for you through everything
Now you're playin' on my jealousy
I don't buy that shit you sellin' me
Can't trust you about anything
I rode for you through everything

Got me seein' red, you so black and white
One day you love me, next day it's not right
Why you text me so much just to say I'm not yo' type?
Complain we don't see each other, I got no invite
Girl, don't believe in the hype, he ain't really for you

I'm seein' the lies, what you made me go through
I could've been your superhero, put me in the phonebooth
Sometimes I feel like I don't know you

You playin' off my jealousy
Won't buy that shit you sellin' me
I rode for you through everything
Can't trust you about anything
You're playin' on my jealousy
I don't buy that shit you sellin' me
I rode for you through everything
Can't trust you about anything
