

## Temporary

Caskey

Tried to keep it cool, but you crossed the line  
Chasin' after you, I done lost my mind  
I think we're takin' this too far  
Sometimes don't know who you are  
Is you down to ride?  
Or is this just, temporary?  
Ooh, yeah

Girl, please get up off your phone when you speak to me  
You can't just be down to ride 'cause it's easy street  
Doin' one-ten on the one-oh-one  
I don't need to search, you're the only one  
So is why you switchin' the lane? And  
I ain't opposed to you takin' your shot, but it should be me th  
at you're aimin'  
And you know that you the one callin' the shots, so honestly, w  
ho is you blamin'?

I tried to make it all picture perfect for ya, but it's me that  
you're framin'  
Maybe there ain't no savin' this, it's too tainted  
I can't tell if you solid, I'm too faded  
That's why I've been focused on the blue faces  
You know to win love, you gotta lose, baby  
What you been tryna do lately?

Tried to keep it cool, but you crossed the line  
Chasin' after you, I done lost my mind  
I think we're takin' this too far  
Sometimes don't know who you are  
Is you down to ride?  
Or is this just, temporary?  
Ooh
