

# Between The Eyes

## Cast

When are you gonna be  
What you got to be  
When you begin to see  
It's coming through clearly

Taking them by surprise  
Right between the eyes  
Seein through all the lies  
Seein through all the lies

We gotta make a stand  
Take this thing in hand  
When it's all plain to see  
It's coming through naturally

Taking them by surprise  
Right between the eyes  
Seein through all the lies  
Seein through all the lies

Don't you think that I can't see you?  
You must be blind if you can't see me  
Don't you think that I can't hear you?  
You must be deaf if you can't hear me

Now we're gonna laugh out loud  
Step out from the crowd  
Always standing tall  
No need for feeling small

Taking them by surprise  
Right between the eyes  
Seein through all the lies  
Seein through all the lies  
Seein through all the lies  
Taking them by surprise  
Seein through all the lies  
Seeint through all the lies  
Taking then by surprise  
Right between the eyes  
Seein through all the lies  
Seeing through all the lies
