# For So Long

**Cast**

Tell me who you gonna call
Who you gonna shout
When your so mixed up
Inside is out
And your upside down
Feeling pretty low
But your not quite sure which way to go

Cos it's been going on too long
There must be something going wrong
For so long

Now you think your on your own
Your the only one
And if anyone was there
They'd already left and gone
So people looking round
Anysort of sign
And you realise it's you
Wasting all your time

And it's been going on too long
There must be something going wrong
For so long

Tell me who you gonna call
Who you gonna shout
When your so mixed up
Inside is out
And your upside down
Feeling pretty low
But your not quite sure which way to go

And its been going on too long
There must be something going wrong
For so long
So long
