

Further Down The Road

Cast

If I could only be true to myself
I would be honest if nothing else
And tell myself maybe things could change

Although the day is long
The sun is getting low
When it may soon be gone
So won't you say before you go
Don't keep me hanging on
Come on back to what you know
Further down that road, whoa oh

(The minute you walked in through the door)
I never thought that I'd find love, whoa oh
(Haven't I seen your face before)
And I've been waiting all these years
Standing on the corner with the sunlight in your eyes
Waiting for the moment to arrive

If I could only believe in myself
I would be grateful if nothing else
Things would be different I hear you say

Although the day is long
The sun is getting low
When it may soon be gone
Won't you say before you go
Don't keep me hanging on
Come on back to what you know
Further down that road, whoa oh

(The minute you walked in through the door)
If I could hold you in my arms, whoa oh
(Haven't I seen your face before)
'Cause it's been going on too long
Standing on the corner with the sunlight in your eyes
Waiting for the moment to arrive

Although the day is long
The sun is getting low
When it may soon be gone
So won't you say before you go
Don't keep me hanging on
