

Get On You

Cast

You can sail a boat
And you are way out to sea
You can stay afloat
And stay ahead of the breeze
Come step on board
As you sail away with me
Try and journey far
Over land over sea
Who's gonna get on me
Who's gonna get on you
The light that I thought I'd lose
Could shine the way for me
Light so I can see
You can navigate
Against the tired of routine
You can rescue love
And meet the ocean that's deep
Come and step on board
As you sail away with me
Try and journey far
Over land over sea
Who's gonna get on me
Who's gonna get on you
The light that I thought I'd lose
Could shine the way for me
Light so I can see
Shine, shine the way for me
There's a place I can find
But I need some more time
Its keeps passing me by
And I go with the tides
Pass the light that you shine
Pass the light that you shine
It's you
If you direct your course
You will be able to breach
Right through stony waters
To wherever you reach
Come step on board
As you sail away with me
Try and journey far
Over land over sea
Who's gonna get on me
Who's gonna get on you
The light that I thought I'd lose
Could shine the way for me
Light so I can see
Shine, shine the way for me
Shine, shine so I can see
Shine, shine the light for me
Shine, shine so I can see
