

# Kingdoms And Crowns

## Cast

It's only when I'm feeling down  
Only time can tear us down  
Hear me when I'm calling  
Catch me as I'm falling  
Ain't no kingdom, ain't no crown  
Just castles buried in the ground  
Fortress built on quicksand  
Fortress built on quicksand

Just think of all the love you could've had  
Just think of all the love you could have gave  
Just think of all the love you could've held  
Just think of all the love you could have saved

Do the things that you wanna do (take me away)  
Do whatever you need to do (take me away)  
Do the things that you wanna do (take me away)  
Do whatever you need to do (take me away)

Ain't no kingdom, ain't no crown  
To match the glory that is found  
Fortress made to withstand  
Fortress made to withstand

Just think of all the love you could've had  
Just think of all the love you could have gave  
Just think of all the love you could've held  
Just think of all the love you could have saved  
Just think of all the love you turned away  
Just think of all the love you must give back  
(Down, down, down, down, down)

Do the things that you wanna do (take me away)  
Do whatever you need to do (take me away)  
Do the things that you wanna do (take me away)  
Do whatever you need to do (take me away)  
(Take me away)  
Take me away (take me away)  
Do the things that you wanna do (take me away)  
Do whatever you need to do (take me away)

Ain't no kingdom, ain't no crown  
Memories of the past resound  
Your dreams are built to withstand  
Dreams are made to withstand

Just think of all the love you could've had  
Just think of all the love you could have gave  
Just think of all the love you could have held  
Just think of all the love you could've saved  
Just think of all the love you could have had  
Just think of all the love you could have gave  
Just think of all the love you could have held  
Just think of all the love you could have saved
