

Lose Myself

Cast

Ain't got time to work it all out, what I must do
I've got to lose myself
Every day, any old how, every which way
I've got to lose myself

I get this feeling taking over me
Such a feeling taking over me
I get this feeling taking over me taking over you
Taking over me

Ache all night, ache all day, whichever I turn
I've got to lose myself
Every day, every old how, every which way
I've got to lose myself

I get this feeling taking over me
Such a feeling taking over me
I get this feeling taking over me taking over you
Taking over me

We just wanna set our own solutions
We need time to make some home improvements

Ain't got time to work it all out, what I must do
I've got lose myself
Every day, any old how, every which way
I've got to lose myself

I get this feeling taking over me
Such a feeling taking over me, yeah
I get this feeling taking over me taking over you
Taking over me

We need time so give me some
You can try to make your own
And you must find your own way home
