

See That Girl

Cast

Looking outside my window
Finding only loneliness inside
Put my head on my pillow
I keep looking for a place to hide
But darling tell me why can't our love survive
When I see her face I start to cry

I see that girl again
She's always in my head
No matter how hard I try
She's so hard to forget

Looking over my shoulder
I keep wondering if she may walk by
Now I wish I'd told her
About the feelings that I kept inside
Oh darling tell me why can't our love survive
When I see her face I start to cry

I see that girl again
She's always in my head
No matter how hard I try
She's so hard to forget
I see that girl again
She's always in my thoughts
No matter which way I turn
She's standing there like before

But I can't stop thinking about her
Whenever I'm alone and without her
Can't look at another
Can't look at another girl

No matter what I do
I see that girl again
She's always in my head
I see that girl again
Always in my thoughts
I see that girl again
She's forever in my heart

See that girl, see that girl
See that girl, see that girl
