

The Things You Make Me Do

Cast

Every day I'm feeling this way
What can I do?
You told me the time and it mess with my mind
This much seems true

I'm looking at a piece of myself
That is clear in my eyes
I'm dreaming to and into myself
Its real in my mind
In my mind
It's real in my mind

The things you make me do
The things you make me do
The way you make me feel
The way you make me feel

Isn't it strange of the things people say
Just to be heard
They think they're so clever when they outa know better
They're going to the curb

I'm looking at a piece of myself
That is clear in my eyes
I'm hoping to and into myself
Its real in my mind
In my mind
It's real in my mind

The things you make me do
The things you make me do
The way you make me feel
The way you make me feel

The things you make me do
The things you make me do
The way you make me feel
The way you make me feel

ying in bed with the things that you said
Thinking of you
Everyday I'm feeling this way
With nothing to do

I'm looking at a piece of myself
That is real in my mind
In my mind
It's real in my mind

The things you make me do
The things you make me do
The way you make me feel
The way you make me feel

The things you make me do
The things you make me do
The way you make me feel
