

U-Turn

Cast

Everybody gets a replay, my friend
Takes a little understanding to learn
Know there's many complications at first
But it's OK to make a u-turn reverse

It may feel that it's a long shot that you'll never make
But if you're gonna hit the hot spot, babe you'd better burn

Many different observations to view
So if you find yourself removed and alone
Just realise that most opinions don't count
And take a little time to comfort yourself

And it may feel that it's a long shot that you'll never make
But if you're gonna hit the hot spot, babe you'd better burn

It's impossible for me to say
Strip my feelings, strip them clean away
Send my senses into disarray
Rescue me today (love rescue me)
Love don't turn away (love rescue me)

Underestimate potential in you
It only takes a small adjustment, fine-tune
Make a little alteration, tailor-made
And everything is elementary to see

It may seem that it's a long shot that you'll never make
But if you're gonna hit the hot spot, babe you'd better burn

It's impossible for me to say
Strip my feelings, strip them clean away
Send my senses into disarray
Rescue me today (love rescue me)
Love don't turn away (love rescue me)

It's impossible for me to say
Strip my feelings, strip them clean away
Send my senses into disarray
Rescue me today (love rescue me)
Love don't turn away (love rescue me)
Love don't turn away (love rescue me)
Love don't turn away (love rescue me)
Love don't turn away (love rescue me)
Love don't turn away (love rescue me)
Love don't turn away (love rescue me)
