

As You Do

Castanets

I need you to love me
As you do
I wish you to love me
As you did

And I can't ask you
To take me and be true
But I can ask you
To love me as you do

But I can't pull you out of this
Can't love, love reward us?

I need you to love me
As you do
But I wish you to love me
As you did

And I can't ask you
To take me and be true
But I can ask you
To love me as you do

A trip out of town
As the moon goes down
And the faster we move
The faster we're found

And the closer we get
The brighter it sets
The lower it gets
