

Be Careful Where You Park Your Car

Cat's Eyes

Be careful where you park your car
There's no telling what she might do
'Cause she never had the chance to hurt you too
And if you're asking why
If you're asking why
You looked a little too pleased when you saw her cry (cry)

You kicked her when she was down
all over the town
You might have thought you got the last word

Be careful where you park your car
There's no telling what she might do
'Cause she never had the chance to hurt you too
And if you're asking why
Yeah, if you're asking why
You looked a little too pleased when you saw her cry (cry)

You know that she knows you're just a crutch
She's always known that you're moving on
It's just one thing she's got to do

Be careful where you park your car
And if you're asking why
Yeah, if you're asking why
You looked a little too pleased when you saw her cry (cry)
You looked a little too pleased when you saw her cry (cry)
