

Drag

Cat's Eyes

My friends all say I've changed
Of what few remain
I thought that they would come around
But they're saying your name
And that you're dragging me down

The things we do when we're together
If they ever knew
They would keep us apart

You only show me how
And I fit in very well
But as I hung to through the crowd
They threatened to tell
Oh you've been dragging me down
Oh you've been dragging me down

The things we do when we're together
If they ever knew
They would keep us apart

They would keep us apart
They say you're dragging me down
They would keep us apart

They say you're dragging me down
That you're dragging me down

That you've been dragging me down
That you've been dragging me down

Down, down, down

That you've been dragging me down
They would keep us apart

They would keep us apart
That you're dragging me down
They would keep us apart
