

## The Missing Hour

Cat's Eyes

I go outside in the missing hour  
The silence and every star is for me  
The closer than you are  
And I'm driving the further lights to start  
First to come and last to part  
Where is she the missing hour  
And I'm on this empty road  
It's better to be alone  
Come and come and come  
You will never find a missing hour  
Go go go  
You'll never find a missing hour  
It's better to be alone  
I go outside in the missing hour  
The silence and every star is for me  
And closer than you are
