## **Heathrow**

## **Catfish And The Bottlemen**

Love her from the get go Pick her up from Heathrow Whenever she needs me

Watch her on the West End Pepper up her best friends Whenever she needs me

She was a different league When I was nothing much

Meet her when the tour's up Hug her like her Mother would Whenever she needs me

Snog her in the kitchen
Dance with her to Lemonworld
Whenever she needs me

She was a different league When I was nothing much
