

Carnival Bizarre

Cathedral

Ride with me on a shooting star
Through galaxies of death we chase
Skeletal king of paradise
Cosmic crown is the jewel you wear

Carnival bizarre
Freaks and lepers step right up
Circus of macabre
All the devils are rockin' hard

Silver mountain of razor blades
The masses ascend to a golden lie
Evil angels in bloody lakes
Await to celebrate their fate

Carnival bizarre
Freaks and lepers step right up
Circus of macabre
All the devils are rocking hard

Metamorphisised
From the ghost machine we fly
Through circles of gold
To our celestial throne
Galaxies have died
Dragons breath has frozen
Chaos in serpent forms
Manifest the universe

Crystal phoenix of midnight sky
Carry the burning souls away
Legions of frost we leave behind
Celestial gardens of love we share

Carnival bizarre
Freaks and lepers step right up
Circus of macabre
All the devils are rockin' hard

II Freak out of the mellow man

Cosmic psychonaut
Earth into skies last port
Space turning over now
We elevate our thoughts
Wilderness as we abort, oh yeah!!!
