Crawling Over Me

Catherine Wheel

Lying on the floor
Where the colour doesn't show
Through the open door
Is a place where I won't go
Time will tie my hands
The willingness to try
Maybe it's inside
I know where it runs to

It takes up all my time
I know where I want to run
It crashes through my mind

It's enough to make you crawl on your knees and Crawl on your knees and Crawl on your knees and Crawl over me,
Under me, over me

A piece of you that's mine A piece of you that's mine A piece of you that's mine A piece of you that's mine
