

Ferment

Catherine Wheel

Sugar in the heart is burning
Sweetened lips and eyes are glowing
All the things you take are spinning 'round

Such a waste but you can't taste
What's coming down
All the time you say
You can turn this movie around

Needle stings and blisters breaking
Swinging moods and conscious fading
All the things you dream are spinning 'round
Always it seems to bring you, bring you down

Any time you say
You can turn this movie around
You can turn this movie around

Ferment
Ferment

Ferment
Ferment

The dream is always fixed ???
Sugar faceless when sweetness wakes ????
Ferment
Fermenting fermenting fermenting oh
Light your fading light
Ferment your life
Your fading light
Ferment your life
Fermenting fermenting fermenting
