## **Strange Fruit**

## **Catherine Wheel**

I've been inside this fruit when juices flow But the taste is just a memory you hold There is no real decay
No feeling of the skin
No juice

Strange fruit, strange fruit, strange fruit It never lets that sun out Strange fruit

This is sweet the soul the flesh I wish It's the liquid that I miss
There is no real decay
The flesh is barely bruised
It's no use

Strange fruit, strange fruit Sonic juice inside my head This fever is so concentrated Oh no what a shame

Climb the tree and shake this passion down But this fruit won't even kiss the ground There is no real decay
The flesh is barely grazed
There's no way

Strange fruit, strange fruit, strange fruit
