

# All Illusion

Cave In

[Verse 1]

I gained a glimpse of the hell burning my eyes  
Was blind illusions step in tides  
And here I emerge from the place I can't despise  
It's all an illusion, mine never lies

[Chorus]

Fall elapses in trickle time crimson streets  
Swallowing glass may combine  
Fingers will land on a key in time  
What doesn't kill me may survive

[Verse 2]

Descending depths, a little love kinds  
The stranger the fear, the further it flies  
And here I emerge from the place I can't despise  
It's all illusion, mine never lies

[Chorus]

Fall elapses in trickle time crimson streets  
Swallowing glass may combine  
Fingers will land on a key in time  
What doesn't kill me may survive

[Post-Chorus]

Weeping fear, I would die  
What doesn't kill me may survive, oh
