

# Shake My Blood

Cave In

[Verse 1]

No one leave, no one leave to say goodbye  
No more dreams, no more dreams waiting to die  
I need, I need to shake my blood  
Now it seems, now it seems no one's blood

[Chorus]

Shake my blood  
I need to shake my blood

[Outro]

Shake my blood  
Shake my blood in your shadow  
Shake my blood  
Shake my blood, I will be done
