

# Run the World

Cazzette

I am breathless without you  
Like the air is no longer mine

Come to me, I need to feel  
We're getting closer  
Too long we've been masking our emotion

I would run the world for you, lover, for you, lover  
I would run the world for your love, for your love

I'll never let you go  
I'll never let you go

I am loveless without you  
Like a diamond losing its shine

Come to me, I need to feel  
We're getting closer  
Too long we've been masking our emotion

I would run the world for you, lover, for you, lover  
I would run the world for your love, for your love

I'll never let you go  
I'll never let you go

There's nothing or no one between  
Be your heart, I will trace endlessly  
I keep running, keep running  
I keep running, keep running
