

For Always

CeCe Winans

Remembering so well, the day that I met you
You took me in your arms and caused dreams to come true
From the fear of what would be
You came and rescued me

CHORUS:

Lord I pray today for the rest of my life,
live inside my heart please stay for always
till that timeless place when we're face to face
And we embrace for always

I look ahead and see the hills that I must climb
Some high and some low
But if you lead I'll go
and at the end I'll see, you were always there with me

CHORUS
