

Songs From The Heart: Walking the Night/The World Falls Away

Celtic Woman

Walking the night without you
Skies too high without you
Losing my way on silent roads without you long lone streets before me
No voice in the night to warn me
No sound of our songs
To bring you to me
Losing my way
Stars send me astray
Walking the night without you
Loud in sigh without you
No song I learn
No way I return
Brings you closer to me
Searching for songs without you
Moon so cold without you
Longing to near
Straining to hear
A song from you
Walking the stars without you
