Inhuman Dissections of Souls

Centinex

I have found the pleasure in life Trequent with the dead I love their devoted eyes They never tell me lies

I crush the corpses Crawl on the graves The smell of death fill my lungs

I crush the corpses Crawl on their graves The smell of death fill my lungs

Tear up your organs
Eating the remains
Suck your stinking fingers
Soon I will be fed

Feel the mush upon my lips Taste the septic bacteria Rotten buried dead Soon I will be fed

The maggots dwell on your skin I rip your lovely skull Your flesh putrid and rotten I have found the pleasure in life

Tear up your organs
Eating the ramains
Suck your stinking fingers
Soon I will be fed

I have found the pleasure in life Frequent with the dead I love their devoted eyes They never tell me lies
