

Strung out on Viagra

Cephalic Carnage

They say that smoking weed is bad for you
I'd rather smoke a joint, than do a shot or two
I get all stoned, and get some poo
Who needs Viagra when you got weed?
It's really quite simple
A quarter of weed is fifty times cheaper than Viagra
Ingesting pot gets you in the mood
In a few minutes you'll be hitting the sheets
On Viagra, you'll have to wait an hour
By then I'll be asleep farting, next to my woman,
