

Guardian of the Ice Void

Chainsaw

Wings of steel high in the sky
I can't see you through my electric eyes
Now as hell summons I laugh with your cry
I'll suck your soul when I'll drop my disguise
Power of the sound
Sonic fierce attack
Blind but strong
Thunder is rolling crying
Blind but strong
Thunder is rolling crying
Guardian of the ice void
Of the ice void
Guardian of the ice void
Of the ice, of the void
God cover his eyes
He knows that the time has come
Mountains of ice surrounds you
Hope with the sun has gone
Mountains of ice surrounds you
Hope with the sun has gone
Guardian of the ice void
Of the ice void
Guardian of the ice void
Of the ice, of the void
Wings of steel high in the sky
I can't see you through my electric eyes
