## Yes I Was

## **Chalee Tennison**

Did I marry way too young Did I think he was the one Did I find out I was wrong Yes I did Have I watched my babies grow Have I taught them all I know Have I raised them all alone Yes I have All that I know is these are the places that I've been Every mistake I made is a part of who I am Was I a fool to always trust so much in love Was I wrong, was I right Yes I was Did I wait tables all night long Work my fingers to the bone Did I struggle to be strong Yes I did Have I grown up way too fast Have I learned from all my past Have I found some peace at last Yes I have All that I know is these are the places that I've been Every mistake I made is a part of who I am Was I a fool to always trust so much in love

Was I wrong, was I right

Yes I was
