

# Won't Change

Chamillionaire

Downtown, living in that h-town  
You know I love how you love to love me, baby

I ride for my home and state  
Where we be riding vogues and swangs  
And cups be overflowed with drank  
No we don't care what people say  
My city been through so much pain  
They love me and I sure won't change

Won't change

Music slow but I'm such a speeder  
Tried to exit the feeder  
Spotted me like a cheetah  
Looked in the car and he asked me if I'm a dealer  
Keep a tool and some screw so I told him I'm bob vila  
Young tela feeling like derek jeter  
I'll show your girl how I swing it as soon as I get to meet her  
Hate on me from the rear while they playing follow the leader  
All these caucasian (diamonds) I must have caught jungle fever  
First they love it and then they hate it  
Welcome to texas where flip-flopping is overrated  
Must've not got the memo, say they're happy you made it  
But they really full of hot air like the skinnies I just inflated  
Hard to say rip after timelessness get created  
You'd think that we'd live forever with music that's never dated  
We gon' treat every day like it's ugk's birthday  
When bun say he's happy you made it just tell him happy belated

I ride for my home and state  
Where we be riding vogues and swangs  
And cups be overflowed with drank  
No we don't care what people say  
My city been through so much pain  
They love me and I sure won't change  
Won't change

Yeah it's just foolishness that you hear  
Some that will never get it will tell you that it's their year  
Some will say that you're finished the minute you disappear  
But if diamonds could tell the future my future looks crystal clear  
Can't get to comfortable when you no longer live in petty  
Ordered the chicken over the alfredo with spaghetti  
She's in the mirror for an hour say she's getting ready  
That 59 minutes that I could have been getting fetti  
Ugh lets get back in the mix  
You can dream about sleeping while you out stacking your chips  
Stunting on em with all this candy immaculateness  
They walking in houses that isn't worth more than half of your wrist  
She said this but do you think that you can run long as you did with paul  
Do photoshop make models think that they ain't got a flaw  
Funny how most be talking like they did it all  
And what's ironic is I can't see anything they did at all

I ride for my home and state  
Where we be riding vogues and swangs

And cups be overflowed with drank  
No we don't care what people say  
My city been through so much pain  
They love me and I sure won't change  
Won't change  
And you know I won't change

She said that you've been gone for too long you know ya so crazy  
You know I love how you love to love me baby  
Now I'mma drop the top, she gon' bop, she's saying that's so amazing  
I'm on them spokes, I just hope this ain't your lady  
Now I'mma put it down put it down for texas and that h-town  
Say they so proud  
They love how I hold on this grain  
Crawling super slow on these swangs  
Wit the candy coats on my paint  
And the city know I won't change  
I won't change

I ride for my home and state  
Where we be riding vogues and swangs  
And cups be overflowed with drank  
No we don't care what people say  
My city been through so much pain  
They love me and I sure won't change  
Won't change

There's no rain, there ain't no cloudy days  
When you're rolling on swangs  
They all know I won't change  
I won't change

I ride for my city mayne  
You know I ride for my city all day  
I ride for my city mayne  
And you know I won't change

Hold up they tried to knock us but we never froze up  
You in the presence of players who react like grown ups  
Hold up if I would have known they would try to own us  
I would went out and purchased stock in styrofoam cups  
Hold up
