

# Special

Chanté Moore

I know you're looking for someone  
Something you think will never come  
I know the stress of your life, for sure  
But I know that you will overcome

Special you are  
Lookin' for love, it's not far  
If you could see what I see  
Girlfriend you'll know you are special

Special  
You are  
So special  
You are  
Special

God made you strong and beautiful  
With patience you taught me how to trust  
Our sisterly bodies what more can go  
So I think there's something you should know

Special  
You are  
Priceless to me  
You are by far  
Don't let no one  
Take your light that shines  
Remember that you are  
Special

I know you're looking for someone  
Something you think will never come  
I know the stress of your life, for sure  
But I know that you will overcome

Special you are  
Lookin' for love, it's not far  
If you could see what I see  
Girlfriend you'll know you are special

Special (lalala)  
You are  
So special  
You are  
Special  
Special  
You are  
So special

No one will take what you won't let in  
Dignity is ours, so just keep it safely  
This world will shake you if you let it  
So hold on to who you are  
You got to know that you are...

Special (lalala)  
You are

So special  
You are  
Special  
Special  
You are  
So special  
Don't let 'em tell you otherwise  
You gotta know

My sweet girlfriend  
You gotta know  
In your heart  
Who your are  
Special

You got it in your heart  
Don't give it up...
