

The Space Between Us

Charlene Soraia

In my heart
There's a hidden shadow
In my heart [x2]

In my dreams
There's an unnamed sorrow
In my dreams [x2]

And the orchestra keeps playing
We don't let it show
Don't it feel just like we're letting go

I don't wanna be your burden
I don't wanna bring you down
I just wanna break the silence
The space between us

There's a truth
That this lie's denying
There's a truth [x2]

In your eyes
There's a light that's dying
In your eyes [x2]

I'm trying to believing
Way back to the start
Don't it feel like we're just falling apart

I don't wanna be your burden
I don't wanna bring you down
I just wanna break the silence
The space between us

Don't tell me love is not enough [x4]

I don't wanna be your burden
I don't wanna bring you down
I just wanna break the silence
The space between us [x2]

The space between us
