

Get Up Off Your Good Intentions

Charley Pride

Harness that team and hitch it to the plow
Get yourself in gear right now
Get out the lead now don't be slow
Now's the time to hoe that row

So get up off your good intentions
Get up off your stop and go go
Get up off your good intentions
Get a little get up and go

There's places to go and people to meet
Get on the move you're draggin' your feet
Quit makin' excuses you're wasting time
You can't get ahead on your behind

So get up off your good intentions
Get up off your stop and go go
Get up off your good intentions
Get a little get up and go

I can't never did and couldn't never could
Believe you can and you'll do good
Nothin' gets done just a sittin' on a shelf
By foolin' around you're just foolin' yourself

So get up off your good intentions
Get up off your stop and go go
Get up off your good intentions
Get a little get up and go

Get up off your good intentions
Get up off your stop and go go
Get up off your good intentions
Get a little get up and go
Come on, now!

Get up off your good intentions
Get up off your stop and go go
Get up off your good intentions
Get a little get up and go
