I Still Can't Leave Your Memory Alone

And I still can't leave your memory alone

Charley Pride

Last night it came around again and went walking through my min d

And again it's got the best of me and I felt just like a child After all the hurt it caused me I guess I sure have known But I still can't leave your memory alone

No I still can't leave your memory alone it's all I've got to c

ling to since you've gone
Yes I know that it's over but I keep hanging on

Tonight I should make you go erase you from my mind
But I can only lose you one thought at a time
And Lord I pray the time will come when one day I'll be strong
But I still can't leave your memory alone
No I still can't leave...
No I still can't leave your memory alone
