

# One More Year

Charley Pride

Every night you fall asleep with my kiss and my promise  
That everything we're searching for is near  
Just because we haven't found the mansions of our dreams  
Sweetheart why can't we give it one more year?

Sweetheart I know I've never made one dream come true for you  
If you'll just walk through one more storm a sunshine may appear  
But if we wake up tomorrow and you don't see a rainbow  
Sweetheart why can't we try it one more year?

Sweetheart I know I've never made one dream come true for you  
If you'll just walk through one more storm a sunshine may appear  
But if we wake up tomorrow and you don't see a rainbow  
Sweetheart why can't we try it one more year?

Sweetheart why can't we try it one more year?
