

One Time

Charley Pride

Tell me again how much you love me and that you're contented in
these arms of mine
Tell me there's been no one else before me say you've only love
d this way one time
Even if somebody else has kissed you say you've only known thes
e lips of mine
Even if I'm not the first to hold you say you've only loved one
time

If you knew someone before I found you always keep it from this
heart of mine
Never let it show when I'm around you say you've only loved thi
s way one time
Even if somebody else...
