She Loves Me The Way That I Love You

Charley Pride

She's the closest thing to happiness I found since losing you My chance to live and love again just someone that I turn to No I can't love her completely she knows what I'm going through Cause she loves me the way that I love you She's all the strenght I'll ever need to get me over you She'll help me make you someone in the past that I once knew She's beside me when I need her and these arms she'll never use Cause she loves me the way that I love you She wants me to want her the way that I want you But now she's just someone to help me ease the hurt you put me through

No she won't erase your footprints but in time she'll fill your shoes

Cause she loves me the way that I love you No she won't erase your footprints...
