

# You Touched My Life

Charley Pride

You touched my life and made my heart awaken  
You brought the joy that I've been dreaming of  
You changed my world into a thing of beauty  
When you touched my life with your sweet love

You touched my life and suddenly I'm living  
You touched my chains and suddenly I'm free  
Free from the year that went by without a feigning  
When you touched my life so tenderly

You and you alone had the eyes to see the song in me  
That lay unheard [?] that longed to be set free  
You and you alone had the gift to give to make [?]  
And set them free for your love was the melody

You touched my days and gave me back the sunshine  
You touched my nights and I touched the stars above  
You taught my heart that miracles can happen  
When you touched my life, when you touched my life  
When you touched my life with your sweet love
