

## What I Like

Charli XCX

You call me up at six come 'round undressing in my house again  
Your t-shirt's on the floor yeah we're undressing in my house again  
You know just what I like  
You call me up at six come 'round undressing in my house again  
Your t-shirt's on the floor yeah we're undressing in my house again  
You know just what I like

Used to come around you'd be knocking on my front door  
Playing board games horror films with the super gore  
Thought that you were cute from the start yeah I'm pretty sure  
You were like the medicine the medicine I wanted more  
All along I wanted someone to vibe with  
Found the guy I want the rest of my life with  
Hah, We on some husband and wife shit  
I don't really care cause I know that I like it

And when the clouds part open  
When the last word is spoken  
When the last heart's been broken  
We'll be sitting on your bedroom floor still smoking  
And when the clouds part open  
When the last word is spoken  
When the last heart's been broken  
We'll be sitting on your bedroom floor still smoking, smoking, smoking.

You call me up at six come 'round undressing in my house again  
Your t-shirt's on the floor yeah we're undressing in my house again  
You know just what I like  
You call me up at six come 'round undressing in my house again  
Your t-shirt's on the floor yeah we're undressing in my house again  
You know just what I like

Well now I've got a plan, I hope you're gonna be my man  
I can see us cushy in the house right by the ocean sand  
And when I'm the one to cry I hope you're gonna hold my hand  
And when the shit goes down I hope you're gonna make a stand

This shit is super wild  
This shit is super cool  
This shit is kinda gangster  
I think I'm into you  
This shit is super wild  
This shit is super cool  
This shit is kinda gangster  
I think I'm into you

You call me up at six come 'round undressing in my house again  
Your t-shirt's on the floor yeah we're undressing in my house again  
You know just what I like
